GUARANTEE: This kitten is healthy at the time of purchase. A veterinarian's certificate of health is provided. Parents are free of genetic conditions insofar as can be known. All breeding cats are tested to FeLV and FIV, are they are negative. There is no diagnostic test for FIP. Buyers shall agree to take new kitten to a veterinarian of their choice within a few day of adoption, for a well-kitten exam and a series of booster shots. Before leaving the cattery the kitten will have received first shots and will be wormed. Breeder will provide a health record of the dates and type of vaccines and wormers given. Buyer will be given schedule of booster shots by their vet at the post adoption checkup.

Policy Statement: Kittens will not be registered until they are proven to be spayed or neutered, but regardless of registration decision, kittens sold as pets must be neutered or spayed. Kittens shall not be returned after 15 day unless a veterinarian's certificate stipulating to a health reason provided. If returned within the immediate 15 day period, a refund of $\frac{1}{2}$ price may be given. Our kittens will not be sold to any buyer who intends to allow the kitten to roam free outdoors: they are born and bred to be kept indoors for their lifetime.
